St. Paul, MN 55107-1402

How do I request a copy of a check?

All check photocopy requests must be received in writing. There is a \$15.00 fee for each photocopy, this fee must be included with the written request and be payable to U.S. Bank. Bearer bonds

Where do I send bonds/coupons for payment?

If the bearer bond has matured or has been called for early redemption, send the bond, a signed W-9 form and a letter of instruction to:

U.S. Bank Global Corporate Trust
Attn: Bearer Payments, EP-MN-WS2N
111 Fillmore Ave E
St. Paul, MN 55107-1402

It is recommended that bearer bonds be mailed registered or certified. If the bond has been called, include all attached coupons. If the bond has matured and there are still coupons attached, separate the coupons from the bond and include them in the mailing.

To redeem a coupon, send the coupon and letter of instruction to the address above. Coupons are accepted for current and prior payable dates only.

How can I receive call and maturity notice information for bearer bonds?

Since bearer bonds have no registration information associated with them, call notices are not mailed to bearer bond holders. Call information can be located in various publications, such as the BondBuyer and the Wall Street Journal. Bonds are generally called on interest payable dates, so it is recommended that you check the call status of your bond prior to sending in coupons for payment. It is the bondholder's responsibility to confirm whether the bond has been called.

Maturity notices are not mailed to bearer bond holders for two reasons: 1) Bearer bonds have no registration information associated with them and 2) the maturity date is printed on the face of each certificate. It is the bondholder's responsibility to be aware of the maturity date for the certificate.

Registered bonds

Where do I send bonds for payment or transfer?

If the bond has matured or has been called, send the bond and letter of instruction to:

U.S. Bank Global Corporate Trust
111 Fillmore Ave E
St. Paul, MN 55107-1402

It is recommended that you mail your bond via registered or certified mail. If you wish to transfer your bond or would like the payment to be made to another individual or institution, please follow transfer or payment instructions appropriate to the situation. For specific questions, please contact Bondholder Services at 1.800.934.6802 24 hours a day, seven days a week.

When do I obtain interest or principal payment information?

Please allow 10 business days after payment date to receive a check. Please allow 2 business days after the payment date to confirm the receipt of a wire.

Interest and principal payments are never released prior to payment date.

Interest payments are released on payment date provided the funds are received from the issuer prior to 3 p.m. Central Time on that date. If received after 3 p.m. Central Time, interest payments will be released the following business day. If a bond is called or matured, interest ceases to accrue as of the redemption or maturity date. At the end of the year, all bondholders who received interest payments on taxable bond issues receive form 1099-INT for tax reporting purposes.

Principal payments are not due and payable until the payment date. Principal payments will be mailed to the address of registration, unless notified otherwise, in writing, by the presenter of the bond. At the end of the year, all bondholders who received a principal distribution during the year will receive form 1099-B for tax reporting purposes. All principal proceeds must be reported to the IRS whether or not the bond issue is taxable.

How can I receive call and maturity notice information for registered bonds?

Call notices are mailed to the address of registration for all registered bondholders. Once your bond has been called for redemption, interest ceases to accrue and the bond should be presented for payment. It is the bondholder's responsibility to present the bond for payment.

Maturity notices are not mailed to registered bondholders. The maturity date is printed on the face of each certificate. It is the bondholders' responsibility to be aware of the maturity date on the certificate.
